

Space Not Allowed for Non-Registry Human Embryonic Stem Cell Research Because Federal Funds Were Used for Construction

Attached is a list of buildings and rooms that may not be used for non-registry human embryonic stem cell research because some federal funds were used in their construction or renovation.

Under federal policy, federal contributions to a space construction or renovation project must be acknowledge for 20 years after the completion date. After that date, the space is available for non-registry human embryonic stem cell research. The attached list contains the date this 20 year acknowledgement expires and the room becomes available.

Space Not Allowed for Non-Registry Human Embryonic Stem Cell Research Because Federal Funds Were Used for Construction

Bldg #	Building Name	Floor	Room	Date Available
--------	---------------	-------	------	----------------

The following building used federal funds during initial building construction. Therefore, the stated percentage of assignable square footage (ASF) in the building may not be used for non-registry human embryonic stem cell research until the specified date.

Bldg #	Building Name	% of Building ASF	Date Available
2325	Koret Vision Research Laboratory (K)	25%	July 1, 2008

The following rooms used federal funds for construction or renovation. Therefore, these rooms may not be used for non-registry human embryonic stem cell research until the specified date.

Bldg #	Building Name	Floor	Room	Date Available
2251	Clinical Sciences (C)	5	534	July 1, 2009
